#### 6 Exceptional Children Headcount

Adjusts funding budgeted for the Children With Disabilities preschool and school-age allotments to reflect actual student headcount. The continuation budget includes anticipated growth based on the projected headcount of children with disabilities. This adjustment revises budgeted funding for both preschool and school-age children with special needs to reflect the April 1, 2013 headcount and does not reduce funding per student.

#### B. Elimination of the LEA Adjustment

#### 7 LEA Adjustment Elimination

Eliminates the LEA Adjustment completely. The elimination is accomplished by: 1) providing additional General Fund support to lower the recurring amount of the Adjustment, and, 2) reducing specific allotments in approximately the same proportion as school districts have done the last two years in implementing the Adjustment.

#### 8 Classroom Teachers

Adjusts funding to school districts for guaranteed Classroom Teacher positions, modifying this allotment in approximately the same proportion that school districts had done in previous fiscal years to implement the LEA Adjustment. Nearly 70% of all funds foregone by LEAs over the last two years to comply with the Adjustment came from the Classroom Teachers and Career Technical Education Months of Employment allotments. Revised ratios for distributing guaranteed positions from this allotment are as follows:

#### FY 2013-14

K: 1 teacher per 19 students
1-3: 1 teacher per 18 students
4-6: 1 teacher per 24 students
7-8: 1 teacher per 23 students
9: 1 teacher per 26.5 students
10-12: 1 teacher per 29 students

#### FY 2014-15

K: 1 teacher per 19 students
1: 1 teacher per 18 students
2-3: 1 teacher per 17 students
4-6: 1 teacher per 24 students
7-8: 1 teacher per 23 students
9: 1 teacher per 26.5 students
10-12: 1 teacher per 29 students

#### 9 Instructional Support Personnel

Adjusts funding to school districts for guaranteed Instructional Support positions, modifying this allotment in approximately the same proportion that school districts had done in previous fiscal years to implement the LEA Adjustment. Nearly 5% of all funds foregone by LEAs over the last two years to comply with the Adjustment came from this allotment. \$323.0 million will be available in this allotment in FY 2013-14; \$326.1 million will be available in FY 2014-15.

| 13 School Bus Replacement Reduces funding for school bus replacement and modifies the school bus replacement standards pursuant to Section 8.11. Currently, school buses are eligible for replacement after 20 years or 200,000 miles of service. This item modifies the mileage and age standards and appropriates sufficient funding to replace all school buses meeting the revised criteria. 539 buses will be replaced in FY 2013-14; 579 buses will be replaced in FY 2014-15. \$37.8 million will be available for this purpose in FY 2013-14; \$49.6 million will be available in FY 2014-15.  | (\$29,823,055) | R | (\$39,102,605) | R |

| Adjusts the supplemental allotment for school districts in low wealth communities to align funding availability with actual school district eligibility. This adjustment will not reduce funding to eligible districts. In addition, Section 8.3 of this act adjusts the Low Wealth formula to provide the same amount of supplemental funding to school districts in certain low wealth counties as received in the 2012-2013 fiscal year. These local school administrative units have an average daily membership of more than 23,000 students and are in counties that also contain a base of the Armed Forces of the United States. \$213.1 million will be available in this allotment in FY 2013-14 and FY 2014-15. | (\$15,526,391) | R | (\$15,526,391) | R |

| 16 Small County Supplemental Funding Reduces funding for this supplemental allotment for small counties in FY 2013-14 to align funding availability with actual school district eligibility. In FY 2014-15, this allotment is restructured to restrict eligibility to only those counties with ADM of 3,200 or less and to provide per-pupil funding on a sliding scale based on the size of the school district. LEAs made ineligible under this formula will have their allotment phased-out over a five-year period. Section 8.4 provides additional details on this change. \$44.6 million will remain in this allotment in FY 2013-14 and \$42.4 million will remain in FY 2014-15. | (\$949,694)                       | R       | (\$3,192,877)   | R |

That expansion enables: 1) direct access to value-added information for teachers who teach classes with an End of Course/End of Grade test, and 2) capability for users to export EVAAS data and merge it with other relevant analyses. Total EVAAS funding will be \$2.7 million.  | \$850,000                         | R       | \$850,000       | R |

#### 55 Hospital Provider Assessment

(\$52,000,000) R (\$52,000,000)

Effective July 1, 2013 the hospital provider assessment plan will be modified so the State's retention will be 25.9% o the total assessment paid by hospitals instead of a stated amount of \$43,000,000.

#### **56 Hospital Base Rates**

\$0 R \$0 R

Recalibrate the hospital inpatient payment system so that the base rates will be regionally set for all hospitals in that region to eliminate the disparity in rates for the same services between hospitals that exist in the current system. Hospital inpatient services are paid based on a diagnosis related group (DRG) system. There are 746 DRG's in the Medicaid program that represent classifications of services provided during an inpatient hospitalization. Each of the 746 DRG's has a weight that represents the relative resources required for services related to that diagnosis, recipient age, sex and the presence of complications or comorbidities. Hospital payment is determined by applying a base rate, unique to each hospital, to the DRG weight. The hospital base rates were developed using each hospital's costs in 1994. Changes to these base rates have only occurred when the General Assembly has approved an increase or decrease in rates. DHHS will work with hospitals to identify appropriate regional differences and define regional definitions.

#### **57 Medicaid Copays**

(\$3,308,100) R

(\$4,962,150)

Increases nominal copays for eligible Medicaid services to the maximum allowed by the Centers for Medicare and Medicaid Services (CMS) effective November 1, 2013. Services that are excluded from copays by CMS are medical emergency services, family planning services, "preventative" services for children and pregnancy-related services. All nominal copays will be capped at the maximum allowed by CMS at June 30, 2013.

#### 58 Medicaid Contract Reductions

\$0 R (\$2,016,771) R

Adjusts contract expenditures in the second year of the biennium to reflect a reduced cost of operation and adjudication of claims related to the new Medicaid Management Information System that will be implemented July 1, 2013.

Currently, brand drugs are paid at Wholesale Acquisition Cost (WAC) plus 6% and Generic drugs are paid at 195% of the State Medicaid Average Costs (SMAC). WAC mark up will be adjusted 1% and SMAC mark up to 150%. Dispensing fees for brand drugs will be reduced to \$2.  | (\$14,616,627) | R | (\$30,185,714) | R |

DHHS will work with providers to develop a shared savings plan that will be implemented by January 1, 2015 that will include incentives to provide effective and efficient care that results in positive outcomes for Medicaid recipients. In FY 2013-14 the State share of the amount withheld will be \$14.7 million. This represents a total impact of \$41.9 million in provider payments, including both the State and federal shares. In FY 2014-15 the State share of the withhold will be \$30.6 million, providers will be eligible for shared savings that are projected to total \$8.9 million and the impact of the shared savings plan on expenditures is projected to be \$15.1 million. | (\$26,924,941) | R | (\$44,710,352) | R |

#### 70 Transfer of Health Choice Children

Transfers all children under 133% of the Federal Poverty Level beginning January 1, 2014 in accordance with the Affordable Care Act which requires they be covered under Medicaid instead of Health Choice. Provides funding for the increase in costs that will be incurred as a result of these recipients being eligible for broader benefits under Medicaid than they had when covered under Health Choice. In FY 2013-14 there will be about 51,000 recipients impacted. The State will retain the State Children's Health Insurance Program federal match instead of the traditional Medicaid federal match. There is a partial offset in Health Choice for this amount.

#### 71 MMIS Implementation Costs

Provides funding to implement manual processes to ensure the appropriate payment of claims by hiring temporary staff or through external contracts. The new Medicaid Management Information System (MMIS) for the adjudication of claims is scheduled to be implemented July 1, 2013. The new system will not contain all of the functionality of the current MMIS.

#### 72 Community Care of North Carolina Study

Provides funding for a study to determine whether the Community Care of North Carolina model saves money and improves health outcomes. This was recommended by the State Auditor in the January 2013 performance audit of the Medicaid Program. Total funding available for the study is \$200,000 as the State funds may be used to match federal Medicaid administrative funds.

#### (12.0) NC Health Choice

#### 74 Contract Budget Adjustment

Reduces Health Choice contract expenditures to actual amounts.

#### 75 Rate Freezes for Services Subject to Automatic Increases

## **56 Toxicology Outsourcing Funds**

\$750,000

R

Provides funds for the outsourcing of toxicology cases to private lab service providers. Priority should be given to cases originating in the western part of the State to reduce the need for Crime Lab analysts from Raleigh and Greensboro to travel to those areas. If the Department determines that outsourcing of toxicology cases is not feasible due to legal concerns involving analyst testimony, these funds may be redirected to increase toxicology analysis capabilities within the Crime Lab.

### E. Training and Standards

# 57 Sheriffs' Education and Training Standards

\$1,000,000 R \$1,000,000

Appropriates funds to support the Sheriffs' Education and Training Standards Commission. Section 16C.6 transfers funds from the Statewide Misdemeanant Confinement Fund to the General Fund for this purpose. This Commission is currently supported by a portion of the \$2 court fee designated for law enforcement training. Those funds will now wholly support the Criminal Justice Education and Training Standards Commission. These changes increase the funds available to DOJ to support both Standards Commissions.

### 58 Criminal Justice Education and Training

Section 18B.18 changes the allocation of the \$2 court fee designated for law enforcement training and standards by directing that all of the funds go to the Criminal Justice Education and Training Standards Commission (CJTS). Previously, those funds were split between the Sheriffs' Standards Commission and CJTS. The appropriation of funds to support Sheriffs' Standards in the previous item allows for the redirection of all of the \$2 court fee to CJTS, increasing the amount available to DOJ for the support of both Standards Commissions.
