50	1825-26	100	1911	150	2011	200	

*Counting from the first assembly elected under the 1776 Constitution (as listed in then-Secretary of State John Cheney's North Carolina Government 1585-1979), these are the actual numbers of the sessions. However, over the years the official count has often been reported as one fewer than the actual count. It is unknown when this error was first made, but these are the actual counts.
